SUMMARY

React Native Developer with hands-on experience building and maintaining production mobile applications using **React Native, Expo, TypeScript, Redux Toolkit, and REST APIs**. Experienced in implementing real-time communication features, push notifications, third-party SDK integrations, and full-stack web development using the MERN stack. Passionate about building scalable, high-performance applications.

EXPERIENCE

Software Development Intern (Frontend & Backend)

May 2026 – Jul 2026

Konvo – Saush Innovations Pvt Ltd

Remote

- Developed and maintained production mobile application features using **React Native, Expo, TypeScript, Redux Toolkit, and Redux Saga**.
- Implemented and enhanced production features including **wallet, push notifications, real-time audio/video calling, configurable UI components, and API integrations**.
- Integrated third-party SDKs including **Firebase, Agora, Notifee, and Mixpanel**, while debugging production issues and optimizing application performance.
- Collaborated with the engineering team using Git-based workflows, pull requests, testing, code reviews, and agile development practices.

Front-End Developer – Freelance Projects | React.js, Next.js, Redux Toolkit

May 2024 – May 2026

- Built responsive web applications using React.js, Next.js, Redux Toolkit, Tailwind CSS, and REST APIs.
- Developed reusable UI components and integrated backend APIs to deliver responsive user experiences across multiple freelance projects.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript

Mobile Development: React Native, Expo, Redux Toolkit, Redux Saga

Frontend: React.js, Next.js, Tailwind CSS

Backend: Node.js, Express.js, REST APIs

Database: MongoDB, Firebase Firestore, Redis

Tools & Integrations: Git, GitHub, Firebase, Agora SDK, Notifee, Mixpanel, Docker, Android Studio

PROJECTS

Smart Job Hunter | | **Live:** smart-job-hunter-ai.vercel.app

- Built an AI-powered job matching platform using the MERN stack to analyze resumes and match candidates with live job listings.
- Implemented authentication, job bookmarking, infinite scrolling, and REST API integration.

Task Management System | | **Live:** task-management-two-lovat.vercel.app

- Built a full-stack task management application with JWT authentication and role-based access control using React, Node.js, Express, and Firebase Firestore.
- Developed secure task assignment, status tracking, and protected routes for Admin and User workflows.

Habitura | | **Live:** habitura-backend.onrender.com

- Built a full-stack habit tracking platform with Firebase OAuth, Redis caching, Docker deployment, and MongoDB.
- Implemented habit tracking, reminders, analytics, and secure user authentication.

EDUCATION

B.E. Electronics & Communication Engineering, Chandigarh University

2017 – 2021

CERTIFICATIONS

Meta Front-End Developer Professional Certificate | 

2024
